LOUISVILLE, KY, Jun. 22, 2020 - Payment Alliance International adds bitcoin to cash capabilities with strategic partnership with B4U Financial LLC Bitload4U.

PAI, the largest privately held ATM portfolio management tools and services firm, has announced partnership with B4U in order to better serve the quickly emerging crypto-currency market. The move allows users to access the B4U Financial global processing network to manage the authorization, clearing and settlement for most major blockchain currencies. B4U provides a safe, secure, and convenient way to liquidate crypto currencies and receive funds.

PAI's machines will be equipped with B4U Network capabilities, including the ability to withdraw cash using any crypto-currency mobile wallet.

PAI/B4U terminals are currently being activated across 400 locations in the state of Florida, with plans to increase locations nation-wide in the near future.

About Payment Alliance International

Payment Alliance International (PAI) is the nation's largest, privately-held provider of ATMs, offering ATM portfolio management tools and services, including transaction processing, bank sponsorships, maintenance, cash in transit (CIT) servicing and PAI Reports (the company's market-leading portfolio management toolset) for more than 75,000 ATMs. PAI provides portfolio management tools that offer customers the most visibility and control to maximize ATM portfolio effectiveness and profitability.

About B4U

BitLoad4U Ltd., is the result of many years in the global payments industry. We bring many years of expertise to meeting the liquidity requirements of bitcoin holders. We believe strongly that bitcoin will become a mainstream global payment tender, and liquidity is one of the keys to this success. We are eager to make a difference for bitcoin holders and provide global liquidity to all.
